

14X14 Cat Cube

Code CC

You can tell by the way these cats are smiling, just how much they like their foam house. Constructed from ½ inch foam and a cotton print, this is a fun project to make. You can customize your cat cube by monogramming their name over the front door, and adding fleece to the inside.

Materials required:

3yds of 45" wide cotton fabric.

1 ¼ yd of 32" wide foam

Zipper foot.

We recommend the use of Swedish Tracing Paper to trace the different pattern pieces required.
