

Pet Travel Bag

code PTBag

This bag is extremely handy when on the go with your pet. The bottom storage compartment unzips to hold a standard 8" square plastic container that holds water for food. The roomy bag accommodates other necessary amenities such as leash, brush, blankets and toys. The four pockets between the handles are great for all the smaller items.

Materials Required:

1 3/8 yd of 45" fabric

1/2 yd of nylon Supplex or rip-stop nylon

2 yd of med. weight fusible interfacing

Two 18" nylon coil, separating zippers. (Do not substitute for plastic teeth zipper, it will not turn the corners of the bag.)

3 yd of 1" wide nylon webbing for handles

One 8" square x 3 1/2" high container with lid.

(For example Rubbermaid™).
